**8-9 MAY 2019**

***FACING FORWARD***

# Welcome Address

**Building on the success of WorkCover WA's 2015 and 2017 Conferences, this year's Conference is set to be bigger and better.**

The 2019 Conference will provide a platform to share knowledge and information on themes relevant to workers' compensation and injury management matters. The inevitable change of tomorrow will be explored and speakers will inspire delegates to adopt the necessary skills to embrace change.

We encourage conversation and debate around return to work and workers compensation best practices and initiatives, with our biennial conference being a key tool for the industry to get together and participate.

I commend the industry for coming together to explore current themes and trends in workers' compensation and injury management. These discussions are vital for the continuous improvement of the workers' compensation system in Western Australia.
